

To Joel Schatz,
Teleport San Francisco-Moscow

Moscow 29, Sept., 1986

Dear Joel,

This is a letter of recommendation
to Alexander Majewski.

Two days ago, Sept. 27, at the Exhibit
Alexander was introduced by me to
Elen Klimov. During round-table -
press-conference in presence of a few hundred
viewers EKlimov invited Alexander on stage and
announced that we (Soviets) are ready to
participate in Global Town meeting Dec. 31,
with all nations, and with Alaska, too...
It was filmed for my documentary film I started
to shoot a few days ago.

E. Klimov will come to America on the Oct. 9.
It is obvious that all of us, who were involved
in talks about G.T.M. (Doug, Steven, you, etc.)
would create a proposal for Klimov, or at
least give him a real picture of a
situation on your side. Then he will
continue his own research.

Exhibit is already a warm living body, and
expanding amount of communications is
taking place every day. "Electronic cafe" will
be real some day, I hope, but what happened during
the first 3 days of Exhibit's existence already
made real on this side a vision of G.T.M.
Gorbachev's greetings to Torch and Exhibit made
me and Gennady the most real visionaries
over here.

Once again, of all possible first steps towards GTM on Dec. 31 - Alaska has the most real chance to make an impact on people's consciousness.

9 months ago we started this movement with Alaska. So, please, assist in all ways all efforts of Alexander Majewski. He has a unique factor - Russian language, and a unique experience (he failed (because of Soviets) to create the first space-bridge between them and Kalinin screen).

Now we are committed to win,

Expect your messages.

Joyce.

P.S. Please, remember, I need Kodak 94 film to make unlimited shooting of different spontaneous episodes. You can send it here with Alexander's crew or (and) with other pony-expressers. Go!
